

STEYR AUG A3 9mm XS

STEYR AUG A3 9mm XS

Designed for operations where caliber 9 mm is the best choice. No other 9 mm weapon gives such accuracy with high hit probability as the AUG 9 mm carbine. High accuracy is achieved by 325 mm barrel which gives a higher muzzle energy.

The closed bolt firing system gives the extra edge in accuracy and safety. The sophisticated Picatinny rail system permits all options for attachment of optical sights, red dot sights, white lights and laser aiming devices. The muzzle device allows the use of silencers.

- "Bull Pup" design - short overall length
- optical sight with ring reticule - extremely high hit probability (optional)
- utmost training simplicity
- highest operational versatility

STEYR AUG A3 9mm XS

SPECIFICATIONS
