

STEYR SSG 04

STEYR SSG 04

The new STEYR SSG 04 has been specially designed to serve law enforcement applications. It is built on the proven SBS system and features a heavy hammer-forged barrel with muzzle brake, hi-capacity 10-round magazine, Picatinny rail (Mil. Std. 1913 rail), bipod, a newly developed outstanding trigger and a fully adjustable butt stock.

The fibreglass reinforced polymer stock in combination with the rugged locking system and match grade STEYR barrel guarantees perfect accuracy. The two available calibers, 7,62x51 mm and .300 Win.Mag. will cover all the requirements for law enforcement and military applications.

The SSG 04 is a weapon system which is ready for deployment straight out of the box and does not need any more accessories.
