

# STEYR SSG 08

STEYR SSG 08

The STEYR SSG 08 is a very accurate bolt action rifle with detachable magazine and foldable high-strength aluminium stock.

Due to the foldable stock it can be transported very comfortably. The cheek piece and the butt plate can be adjusted to meet the shooter's individual requirements. The Versa-Pod® bipod and the telescopic butt spike ensure a stable firing position.

By replacing the front strap and the back strap, the pistol grip can be customized to the shooter's hand.

The new designed compensator reduces the recoil of the rifle and accepts silencer. The receiver features an integrated Picatinny rail for scope mounting. Picatinny rails are also fixed on the fore-end of the stock for quick and secure mounting of sighting devices.
