

# STEYR SSG 69

STEYR SSG 69 PII

This rifle was developed according to the requirements of the Austrian Army. The legendary precision and ruggedness of this weapon is well proven by armed forces and law enforcement agencies around the world.

- Cold hammer forged barrel
- Heat shrunk barrel fitting into the receiver
- High-quality synthetic stock, length of pull can be adjusted by spacers, fully ambidextrous
- Extremely fast recycling of the action due to the rear locking system.
- Applied mechanical safety blocks bolt handle and trigger
- Adjustable direct trigger
- Dovetailed receiver in combination with the Steyr SSG scope mount permits a low mounting of the scope.

# STEYR SSG 69
